

## 2017 - 2018 Rule Changes Summary and Interpretative Notes

**Updated April 2, 2017**

*d. BATTER'S BOX, one on each side of home plate, shall measure 0.91m (3 ft.) in front and 1.22m (4 ft.) behind home plate by 1.067m (42 in.) wide. The lines are considered as being within the batter's box.*

*Note: This rule moves the batter's box one foot backwards (now 3 feet in front of HP, 4 feet behind) and widens the batter's box to 3 ½ feet.*

- **Rule 4, Sec 11**

NEW Rule reads;

**Sec. 11 TEMPORARY RUNNER**

*A Temporary Runner is legal for a pitcher who gets on base.*

*The following provisions apply:*

- a. It is not optional.*
- b. There must be two out.*
- c. If the pitcher is on base with less than two out, the Temporary Runner must be used after the second out occurs.*
- d. The Temporary Runner must be designated by the manager during the pre-game meeting.*
- e. If the pitcher is the runner in the tie-breaker situation, they will be considered the same as if they had batted and would be allowed a Temporary Runner with two out.*

- f. Re-entry and substitution rules are waived for the Temporary Runner.*
- g. If an incorrect player is discovered as the Temporary Runner the change is made without penalty.*
- h. If a Temporary Runner is due to go to bat, the next person in the batting order shall be used without penalty.*

***Interpretative Notes: The Temporary Runner (TR) may only run for the pitcher who completed the previous defensive half inning in the pitching position (or is listed as the pitcher on the lineup card in the first half inning). The designated TR may be a starter or a substitute and they will be utilized regardless of whether they are in the lineup or not.***

***If the designated TR is at /coming to bat or already running the bases then the next available player preceding them in the batting order will become the TR.***

***In the case of injury or ejection the designated TR's substitute will become the designated TR.***

***If the TR is running the bases when activated, then the next available player preceding them in the batting order will be utilized as the TR.***

- **Rule 5, Sec 9.b.1**

Amended Rule reads;

***b. DEFENSIVE CONFERENCES – There shall only be three (3) charged conferences with each pitcher during the game.***

***1) A conference includes one (1) or more players leaving their position to meet, and delay the resumption of play.***

***2) - 5) No change***

***EFFECT – Sec. 9 b: A fourth charged conference shall result in the pitcher being declared an illegal pitcher who may not pitch again for the remainder of the game.***

- **Rule 7, Sec 3.d**

NEW Rule reads;

***d. If there is no batter's box at the front of the batter's area, the batter's back foot must be completely behind the front edge of the strike mat, and at the back of the batter's area, the batter's front foot must be completely in front of the back edge of the strike mat.***

**Interpretative Note: This rule would be applied in situations where there is no batter's box to start the game or if the batter's box is made indistinguishable during the normal course of the game and can no longer be used to determine the legal position of the batter.**

**At the beginning of any full inning the umpire may notify both teams that the batter's boxes are no longer distinguishable and that they will be utilizing the batter's area rule. Umpires should be proactive and work with players to ensure they are within the bounds of the batter's area.**

## **FAST PITCH ONLY (ALL CATEGORIES)**

- 2) After 3.5 or 4 complete innings of play there is a difference of 10 or more runs*
- 3) After 4.5, 5, 5.5 or 6 complete innings of play there is a difference of 7 or more runs*

- **Rule 6, Sec. 9.f**

*f. The spotter may carry one ball in their throwing hand that may be given to the pitcher only if the warm up ball goes out of the playing area. Errant pitches that remain in the field of play must be retrieved immediately. The spotter must remain in position at all times. Only one pitcher, one catcher, one spotter and a coach may be in the warm up area. If pitchers are not actively warming up they must return to the dugout area*

**Interpretative note: This is for warm up areas on the field of play only.**

- **Rule 6, Sec 3.m**

Amended Rule reads;
